SIDHARTH MANIKUTTAN Date of Birth: 11/30/2002

Software Engineer

Phone: 07994555147

Email: sidharthmanikuttan9@gmail.com

Gender: Male

Marital Status: Single

Address: Maniyankandathil House Keezhoor P.O Keezhoor, kottayam,

Ettumanoor, Kerala.

Nationality: India

As a passionate and skilled software engineer in the third year of my B-Tech journey, I bring a diverse and robust set of programming abilities to the table. Proficient in C, Java, and Python, I possess a solid foundation in backend development complemented by extensive expertise in frontend technologies including HTML, CSS, and JavaScript.

My mastery extends to advanced frontend frameworks such as React.js, Next.js, and Tailwind CSS, where I craft seamless user experiences that seamlessly blend functionality with aesthetics. Moreover, my proficiency in TypeScript ensures code maintainability and scalability across projects.

Beyond web development, I possess a keen interest and capability in mobile app development, with proficiency in React Native. My adaptability is further highlighted by my adeptness in UI/UX design using Figma, allowing me to create intuitive and visually appealing interfaces that resonate with users.

In the realm of backend development, I am well-versed in Firebase and SupaBase, enabling me to architect robust and scalable backend solutions that seamlessly integrate with frontend applications.

With a passion for innovation and a relentless drive for excellence, I am eager to leverage my diverse skill set to tackle complex challenges and contribute meaningfully to cutting-edge projects in the software engineering landscape.

Education

June 2022 - Till Date

Computer Science - St. Joseph's College Of Engineering And Technology

Bachelor Of Engineering

Palai, Kerala.

UI/UX Designing Front-End Development Programming
